

The Pirate Chest

Today, I took a wrong turn with my pirate ship.

I am now sailing into a school playground.

There a lot of kids around, and I do not want them to steal my gold coins.

I have hidden my gold coins so the kids will not find them.

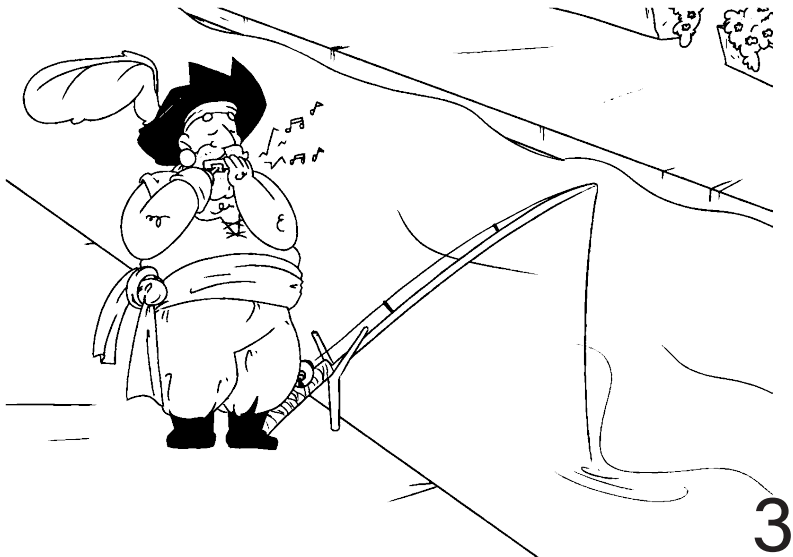

CLUE 1

I saw all of the kids using their feet and kicking something black and white.

It must have been a very fat black and white fish.

The kids kicked the big fish into the biggest fishing net I have ever seen.

I put my first clue under the fishing net.

CLUE 2

There are way too many kids around this school. They are playing and giggling. They are not fishing at all.

I went to the only adult I could see. She was sitting cross legged with long hair.

I asked her why there were so many kids here. But she did not respond.

I asked her her name and she did not answer.

It seemed she was not able to move and was made of stone.

I gave her a clue as I knew she would not tell anyone.

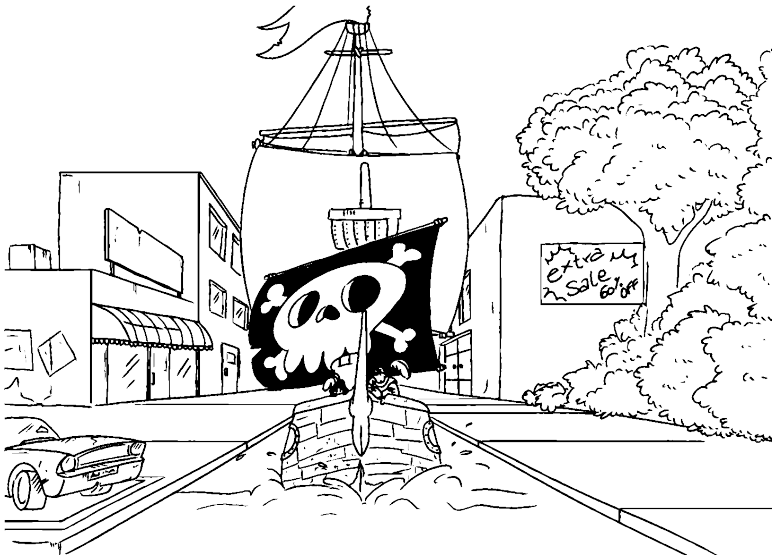

CLUE 4

When my boat hit a storm we rocked back and forth. I got very dizzy.

I saw some children going up and down, back and forth.

They too must have been stuck in a storm.

I hid my clue in the chair for the littlest rocker.

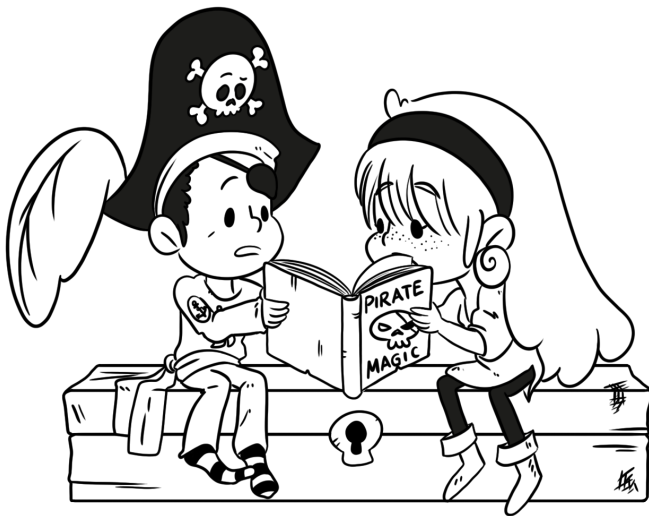

CLUE 5

After the storm, the sun came out and made the most pretty rainbow I have ever seen.

The rainbow had red, blue and yellow streaks.

My mates and I cried looking at such beauty.

I hid the next clue in a place where I could sit on the rainbow and think of the beauty.

CLUE 6

After the storm, our ship was stuck, and we were running out of food.

We were so hungry.

I put my next clue somewhere close where I could get food.

I ate a carrot and potatoe there.

Hint, the clue is above the letter 'R.'

CLUE 7

A lightning bolt crashed and put a hole in our ship.

Water started filling up our ship.

We were going **UNDER**.

THE ship began to **SLIDE** under the water.

My mates and I thought we would die.

CLUE 8

I jumped off the ship into the freezing cold water.

I saw giant rocks. I swam to the one closest to the Stop Sign.

When I got the rock, I stopped and took a breath.

After hiding a clue under the rock, I stood up and looked around for my mates.

Where did they go?

CLUE 10

I found my mates. They were doing the strangest thing.

They were bouncing the fish up and down., and throwing the big circle fish into nets above their heads.

I swam over to them and gave them all of a hug.

We were so happy to see eachother.

We took all of our gold, put it in a box, and burried it under the green bench near by.

The gold was good, but my friends were much more important.

And he also has 3 large tattoos on his arm. They look really cool.

Checkers tells me I am silly, that she will be my friend whether I am colored in or not, but I do not believe her.

We all decide to go to the zoo. There is a marina at the zoo, so we all can swim in, but I have to be careful not to get caught by the zoo keeper. Since I am albino, I am a very rare dolphin.

We swim in the zoo and I see three animals. I see a zebra, a cheetah, and a cow. This gives me an idea of how I can paint my body.

How should I paint my body?

With all these colors on me, I feel like I am cool enough to hang out with my friends Turtle and Checkers.

We all go hang out on my blanket and listen to music. I have so much fun.

Checkers and Turtle tell me I look great, and they also tell me that that we can have fun no matter what I look like.

Maybe they are right?

Thanks for making me look so special. I love the look.

Maybe we should do it again sometime?

You can wash off my colors in the sink and read the story again to make a whole new Winnie.
